

Institutional Distinctiveness

(2019 – 2020)

- The institution is located in a rural area where majority of people belong to agriculture and agro-based profession. In these backdrop the institution has initiated organic drive in the shape of organic model gardening and production input unit. The institution has undertaken various awareness and training programme among students and local community. The institution has motivated rural students as well as nearby people to adopt organic farming practices in their livelihood to popularize the concept of Sustainable Development and tires to motivate the rural people to develop various agro-based skill to empower themselves.
- In connection of organic farming the institution has provided self-funded Short Term Certificate Course on Organic Farming and Production of Inputs for the students. The main objectives of this course is to aware and develop skills on technique of organic fertilizer along with other aspect like indigenous seed conservation, soil management etc.
- Besides this course under the banner of Organic Model Garden and Production Input Unit, the institution has organised various extension programmes for community development. These activity help the students along with the community to develop a healthy and economically stable environment up to some extent. To achieve the above mentioned goal the following practices are taken by the institution – (a) Organise awareness programme on Role of Women in Socio-Economic Sphere at Rajoi Purana Hatkhula Village on 14/03/2020, (b) To empower and motivate the rural community, the institution introduced an Incubation Centre in the institution.
